**FOR IMMEDIATE RELEASE**

## **COUNTIES SHARE IN NATIONAL FOREST RECEIPTS**

PORTLAND, June 15-- Not quite \$156 million dollars will be shared by 31 counties in Oregon and 27 counties in Washington as their portion of the 1994 National Forest System receipts. This amount is about 52 percent of the \$299 million in receipts distributed nationally among 43 states and Puerto Rico.

The share projected for the State of Oregon is \$123,550,786.72, and the estimated share for the State of Washington is \$32,340,428.62, according to Regional Forester John Lowe of the Pacific Northwest Region of the Forest Service. "We provide these advance estimates of payments for local budget planning purposes," he says, adding that final payments will be based on actual amounts collected.

According to Lowe, provisions of the Omnibus Budget Reconciliation Act of 1993 are designed to mitigate economic effects associated with the listing of the northern spotted owl. This year, they allow the Forest Service to pay counties affected by reductions in forest revenues at a rate equal to 85 percent of a five-year (1986-1990) average, he says.

Normally, 25 percent of revenues collected from land-use fees and the sale of resources from 24.5 million acres of national forest and national grasslands go to the States, which are required by federal law to use their share of the money for public schools and roads.

Interim payments representing 75 percent of the estimated total state shares of the national forest receipts will be made in October. The balance will be paid in December, when final figures on the revenue collected during fiscal year 1994 are available.
